Dr. Cohn is a prolific inventor, self-made, healthcare visionary and a true entrepreneur.

In May of 1980, Dr. Cohn graduated from S.U.N.Y. Albany Summa Cum Laude, with a B.A. in Psychology. Dr. Cohn was inducted into Phi Beta Kappa and was elected President of Signum Laudis. During his senior year at S.U.N.Y.A., he did research into the following fields:

**FETAL ALCOHOL SYNDROME**  
**ORGANOMETALLIC COMPOUNDS**

The Fetal Alcohol Syndrome research involved administering pregnant rats increments of alcohol and determining at what levels the offspring developed the "Fetal Alcohol Syndrome".

The Organometallic Compound research involved studying the proton structure of various compounds, altering their configuration and following these changes on the NMR.

May of 1984, Dr. Cohn received his M.D. from S.U.N.Y. Downstate Medical Center in Brooklyn, New York. During Dr. Cohn's fourth year at medical school, he elected to do research in the field of Glaucoma, at Mount Sinai Medical Center with Steven Podos, M.D. - Chairman and Professor of Ophthalmology at Mount Sinai Medical Center. This research involved inducing glaucoma in cynomolgus monkeys and studying the retinal blood flow alterations utilizing fluorescein angiography.

The ensuing year Dr. Cohn became a Medical Malpractice Consultant. Dr. Cohn was hired by the law firm of Bower & Gardner, a Defensive Medical Malpractice Law Firm that specializes in hospital malpractice. Dr. Cohn's job description was Physician Consultant which entailed overseeing the nurses and attorneys in their evaluations and preparations of various malpractice cases. During this time Dr. Cohn began consulting for the following agencies.

Lipsig & Sullivan - August 1985-1990  
Kaplan, Friedman & Zand - August 1985-1990  
Schneider, Kleinick & Weitz - August 1985 to January 1988
